SPS Commerce Reports First Quarter 2017 Financial Results

Company delivers 15% growth in recurring revenue over 2016

MINNEAPOLIS, April 27, 2017 (GLOBE NEWSWIRE) -- SPS Commerce, Inc. (Nasdaq:SPSC), a leader in retail cloud services, today announced financial results for the first quarter ended March 31, 2017.

Revenue was \$51.9 million in the first quarter of 2017, compared to \$45.6 million in the first quarter of 2016, reflecting 14% growth in revenue from the first quarter of 2016. Recurring revenue grew 15% from the first quarter of 2016.

Net income in the first quarter of 2017 was \$3.0 million or \$0.17 per diluted share, compared to net income of \$1.0 million or \$0.06 per diluted share, in the first quarter of 2016. Non-GAAP income per diluted share was \$0.25 compared to non-GAAP income per diluted share of \$0.16 in the first quarter of 2016. Non-GAAP income per diluted share now reflects an adjustment for the tax effects of the add-back of share-based compensation and the amortization of intangibles to non-GAAP income. Detail on retrospective tax effects on non-GAAP income for historical periods that were originally presented without this adjustment can be found on the financial data sheet posted at investors.spscommerce.com.

Adjusted EBITDA for the first quarter of 2017 increased 43% to \$8.5 million compared to the first quarter of 2016.

"We had a strong start to 2017. Our solid first quarter performance was driven by the continued growth of the SPS Commerce network and demand for our comprehensive cloud based platform," said Archie Black, President and CEO of SPS Commerce. "The complexity of retail coupled with constantly evolving consumer demands make it imperative that retailers and suppliers achieve real-time collaboration to stay ahead of the competitive curve. Our technology platform and deep retail expertise enable us to take advantage of this evolution and grow our market leadership."

"In the first quarter, we continued to expand the network, add customers and grow wallet share," said Kim Nelson, CFO of SPS Commerce. "Looking to the rest of the year, we will continue to leverage our leadership position in the retail ecosystem to go after the large opportunity in front of us."

Guidance

For the second quarter of 2017, revenue is expected to be in the range of \$53.4 million to \$53.9 million. Second quarter net income per diluted share is expected to be in the range of \$0.06 to \$0.07 with fully diluted weighted average shares outstanding of approximately 17.7 million shares. Non-GAAP income per diluted share is expected to be in the range of \$0.18 to \$0.20. Adjusted EBITDA is expected to be in the range of \$7.3 million to \$7.8 million. Non-cash, share-based compensation expense is expected to be approximately \$2.5 million, depreciation expense is expected to be approximately \$2.0 million and amortization expense is expected to be approximately \$1.2 million.

For the full year of 2017, revenue is expected to be in the range of \$220 million to \$222 million, representing approximately 14% to 15% growth over 2016. Full year net income per diluted share is expected to be in the range of \$0.36 to \$0.39 with fully diluted weighted average shares outstanding of approximately 17.7 million shares. Non-GAAP income per diluted share is expected to be in the range of \$0.83 to \$0.85. Adjusted EBITDA is expected to be in the range of \$31.8 to \$32.5 million. Non-cash, share-based compensation expense is expected to be approximately \$10.1 million, depreciation expense is expected to be approximately \$4.9 million.

Use of Non-GAAP Financial Measures

To supplement its financial statements, SPS Commerce also provides investors with Adjusted EBITDA and non-GAAP income per share, which are non-GAAP financial measures. SPS Commerce believes that these non-GAAP measures provide useful information to management and investors regarding certain financial and business trends relating to its financial condition and results of operations. SPS Commerce's management uses these non-GAAP measures to compare the company's performance to that of prior periods for trend analyses and planning purposes. It uses Adjusted EBITDA for purposes of determining executive and senior management incentive compensation. These measures are also presented to the company's board of directors.

EBITDA consists of net income plus depreciation and amortization, interest expense, interest income, income tax expense and other adjustments as necessary for a fair presentation. Adjusted EBITDA consists of EBITDA plus non-cash, stock-based compensation expense. SPS Commerce uses Adjusted EBITDA as a measure of operating performance because it assists the company in comparing performance on a consistent basis, as it removes from operating results the impact of the company's capital structure. SPS Commerce believes Adjusted EBITDA is useful to an investor in evaluating the company's operating performance because it is widely used to measure a company's operating performance without regard to items such as depreciation and amortization, which can vary depending upon accounting methods and the book value of assets, and to present a meaningful measure of corporate performance exclusive of the company's capital structure and the method by which assets were acquired.

Non-GAAP income per share consists of net income plus non-cash, stock-based compensation expense and amortization expense related to intangible assets divided by the weighted average number of shares of common stock outstanding during each period. SPS Commerce believes non-GAAP income per share is useful to an investor because it is widely used to measure a company's operating performance.

Additionally, pursuant to recent Compliance and Disclosure Interpretations published by the U.S. Securities and Exchange Commission in May 2016 related to the use of non-GAAP financial measures, SPS Commerce now includes an adjustment to non-GAAP income to reflect the income tax effects of the adjustments to GAAP net income, as discussed above. To quantify these tax effects, the company recalculates income tax expense excluding the direct book and tax effects of the specific items constituting the non-GAAP adjustments. The difference between this recalculated income tax expense and GAAP income tax expense is presented as the income tax effect of the non-GAAP adjustments. Details of the impact on prior year periods are included in the financial data sheet posted to investors.spscommerce.com.

These non-GAAP measures should not be considered a substitute for, or superior to, financial measures calculated in accordance with generally accepted accounting principles in the United States. These non-GAAP financial measures exclude significant expenses and income that are required by GAAP to be recorded in the company's financial statements and are subject to inherent limitations. SPS Commerce urges investors to review the reconciliation of its non-GAAP financial measures to the comparable GAAP financial measures that are included in this press release.

Forward-Looking Statements

This press release may contain forward-looking statements, including information about management's view of SPS Commerce's future expectations, plans and prospects, including our views regarding future execution within our business, the opportunity we see in the retail supply chain world and our performance for the first quarter and full year of 2017, within the safe harbor provisions under The Private Securities Litigation Reform Act of 1995.
