

Integrated Sales Solutions Expands Its Value-Added Services to Vendors by Leveraging SPS Commerce's POS Data Analysis Solution

Manufacturing Representatives Use On-Demand Intelligence Service to Monitor and Improve Store-Level Sales on Behalf of Its Vendor Clients

MINNEAPOLIS, June 14, 2011 (GLOBE NEWSWIRE) -- [SPS Commerce](#) (Nasdaq:SPSC), a leading provider of on-demand supply chain management solutions, today announced that Integrated Sales Solutions (ISS) is expanding its suite of value-added services to include SPS' Trading Partner Intelligence Service for Point-of-Sale (POS). ISS is using the intelligence solution on behalf of its manufacturing customers to monitor sales of each SKU by region, store, and timeframe for the items ISS represents. With expanded capabilities, ISS can offer timely insight to improve sales performance and forecasting for the thousands of SKUs it manages for hard-lines suppliers.

"Our goal is to help our customers gain market share and increase sales of their products," said Jeff Jonsson, President of ISS. "As we consult with our customers, it is critical to have timely information on sales performance to understand where sales are today and where we want them to be. By adding the insight from SPS' Trading Partner Intelligence to our existing services, ISS can better understand sales trends across more than 120 retailers."

"We are pleased to provide ISS an easy-to-use solution that delivers the sales and trend information that they need to better assist their supplier customers," said Archie Black, President and CEO of SPS Commerce. "Trading Partner Intelligence is designed to provide a comprehensive view of a product's sales performance across different retailers and regions. ISS is a leader in leveraging technology and POS analytics to improve sales performance and become a more strategic retail trading partner."
