

Dual Connects With Its Retail Customers and 3PLs Using SPS Commerce's Integrated EDI for Microsoft Dynamics GP

Consumer Electronics Vendor Meets Retailer Integration Requirements With SPS Commerce's Web-Based EDI Service

MINNEAPOLIS, Dec. 6, 2010 (GLOBE NEWSWIRE) -- [SPS Commerce](#) (Nasdaq:SPSC), a leading provider of on-demand supply chain management solutions, today announced that Dual Electronics Corporation, a subsidiary of Namsung Corporation and manufacturer of consumer electronics, is using SPS' Integrated EDI Service for Microsoft Dynamics GP (formerly Great Plains) and WebForms services to meet the requirements of 17 retail customers and several third-party logistics providers (3PLs).

"After evaluating several solutions, SPS was the clear leader for our business with Dynamics GP references, thousands of satisfied customers, existing mappings to most of our retail customers and a commitment to customer service," said Dennis Marchewka, Sales Administration Manager at Dual. "SPS earned Dual's business in 2007 and continues to keep it with their outstanding service."

SPS Commerce's outsourced EDI Service for Microsoft Dynamics GP (formerly Great Plains) integrates directly into an organization's Dynamics GP application. With GP "prewired" to SPS' multitenant, SaaS architecture, the EDI Service delivers greater functionality with less cost and risk than traditional EDI software. Suppliers are enabled to exchange sales orders, advance ship notices, invoices, warehouse shipments and other required documents with trading partners around the globe.

"SPS' adapter to Dynamics GP made our EDI integration effortless," commented Marchewka. "The expertise that SPS Commerce and their partner, Interdyn Business Microvar, provided to ensure the integration's success was refreshing and we have encountered no issues in several years of use."

"We are pleased to provide Dual with an integrated solution to streamline their supply chain and connect with their retail customers," stated Archie Black, president and CEO of SPS Commerce. "The on-demand architecture of SPSCcommerce.net enabled us to integrate trading partner connections directly into more than 100 ERP or accounting systems with ease, including Microsoft Dynamics GP. This proven integration helps to keep EDI easy for our customers."
