SPS Commerce and Fishbowl Deliver One-Step EDI Integration for QuickBooks Community

Industry-Leading EDI and Inventory Management Services Combine to Enable Friction-Free Growth

MINNEAPOLIS and OREM, Utah, April 24, 2013 (GLOBE NEWSWIRE) -- SPS Commerce, Inc. (Nasdaq:SPSC), a leader in enterprise retail cloud services, and Fishbowl, provider of the most-requested inventory management software for QuickBooks, announce the launch of [EDI AnyWare for Fishbowl and SPS Commerce](#). For the first time, Fishbowl Inventory users can connect to SPS's Universal Network of more than 50,000 trading partners, enabling complete compliance with retail customers' data requirements, and the ability to quickly and easily add new trading partners, opening new sources of revenue and profitability.

SPS Commerce provides prewired, proven integrations and comprehensive retail performance analytics to tens of thousands of customers worldwide. The company's enterprise cloud services include electronic data interchange (EDI) outsourcing, point-of-sale (POS) analytics, item management and more.

Since 2001, Fishbowl Inventory has become the top-requested inventory solution for QuickBooks. It is an affordable inventory management solution for small and midsize businesses (SMB) and it offers advanced features, including multiple location tracking, seamless QuickBooks integration, order management, and pick/pack/ship functionality.

"This is an important advancement for QuickBooks users," said Archie Black, president and CEO of SPS Commerce. "The EDI AnyWare service brings together market-leading solutions for inventory management and EDI to address one of the biggest business challenges of SMBs as they embrace the rapidly changing retail marketplace. Combined, SPS and Fishbowl have approximately 10,000 QuickBooks customers who can take advantage of this one-step integration immediately. We are delighted to be partnering with Fishbowl, a market leader in the QuickBooks community."

Developed by EDI AnyWare on behalf of SPS Commerce and Fishbowl, the solution enables organizations to productively embrace the changing requirements and demands of the retail market, in particular those driven by the increasing role of e-commerce:

- Comply with electronic trading requirements;
- Quickly add EDI supply chain partners;
- Automatically create invoices and packing lists;
- Generate detailed sales and inventory reports;
- Speed up the reordering and receiving processes;
- Improve data accuracy; and
- Reduce chargebacks and fines from retail customers.

"As our customers expand their solutions arsenal to meet constantly rising consumer retail expectations, they can immediately take advantage of SPS Commerce's reliable and wide-reaching EDI and business intelligence solution to grow their businesses," said David K. Williams, Fishbowl's CEO. "SPS Commerce's Universal Network provides users with more trusted connections and expertise than anyone else in the market. We are eager to share this new product with our QuickBooks customers and invite SPS's customers to see all that Fishbowl Inventory has to offer."

About Fishbowl

Fishbowl and its cornerstone product, Fishbowl Inventory, make it possible for every business to have the level of flexible and mobile inventory management solutions large organizations enjoy. It is especially popular among manufacturers and wholesale distributors. Fishbowl offers advanced features, including multiple location tracking, seamless QuickBooks integration, order management and pick/pack/ship functionality.
