SPS Commerce Unveils Integrated Fulfilment for MYOB

Vendors Realise Supply Chain Efficiencies From Direct Integration Between the Leading Australian ERP Solution and the SPS Retail Network

MELBOURNE, Australia, Oct. 26, 2015 (GLOBE NEWSWIRE) -- [SPS Commerce](#), Inc. (Nasdaq:SPSC), a leader in retail cloud services, announced today that it has released a certified solution integrating the SPS Commerce Platform with [MYOB Group Limited](#)'s leading accounting and ERP solutions used by more than 1.2 million companies.

The solution streamlines supply chain collaboration across trading partners through the SPS Retail Network of 60,000 organisations. This helps retailers and vendors address the rapidly changing buying trends and fulfilment needs of today's omnichannel consumer. Vendors can use the SPS solution to meet the trading requirements of major retailers.

"We are always looking to streamline our clients' business operations, and enhance their experience using MYOB solutions," said James Scollay, general manager of SME solutions at MYOB. "We are delighted that SPS Commerce is delivering an integrated fulfilment solution enabling our clients to easily access the SPS Retail Network and bringing next-generation fulfilment capabilities to Australia."

SPS has pre-built integrations with numerous ERP and accounting solutions, including Microsoft Dynamics, NetSuite, SAP and now MYOB. These integrations extend the value of the SPS Retail Network across the globe, including Australia and New Zealand.

"We're thrilled to be offering a proven solution that will enable the MYOB community to seamlessly and effortlessly exchange critical business information using the SPS Commerce Platform," said Anna Meyer, director, Asia-Pacific for SPS Commerce. "Customers will benefit from the 'Connect once, infinite scale' simplicity of our retail network."

About Commerce Platform

SPS Commerce transformed retail supply chain technology more than a decade ago with its cloud-based solutions, and continues to innovate with its Commerce Platform. The platform is designed to address the requirements of today's omnichannel retail market. From a common foundation, Commerce Platform powers four key capabilities that deliver item-centric agility: Analytics, Assortment, Fulfilment and Sourcing. Having built a global retail network of more than 60,000 organisations, SPS Commerce shares this expertise in community development by enabling trading partners to on-board members of its trading partner community onto these four core omnichannel capabilities.

About SPS Commerce
